## 30 Day, Money Back Guarantee!

At this time we are offering our customers a 30-day, money-back guarantee. Try any or all of the **Atache** line with no risk!

We are pleased to inform you that Der mavista is now an authorized distributor for the skincare line from **Atache Scientific Cosmedic**, a division of the pharmaceutical group, ASAC PHARMA. The main focus of this group is the research and investigation of active ingredients originating from European and American medicinal plants, tapping into their natural and biotechnology ingredients.

We believe Atache products (pronounced "au-tau-**shey**") to be as good as or better than any we have encountered. You will find the **Atache** philosophy of treatment simple, the "learning curve" very short, and their products effective and less expensive.

Read below to learn more and take advantage of our money-back guarantee.

## Unique "Client Kit" Concept

The new Atache "client kit" concept encourages the up-front purchase of back-bar products in an elegant package which contains all professional products necessary for a complete treatment series. The personal client kits, which remain in the spa for subsequent treatments, include Wrinkle Attack, Anti-Aging or Depigmentation. The kits save you money, standardizes each treatment, and encourages your clients to return faithfully to take full advantage of the investment they have made in the treatment series kit.

## C vital 5-Week Professional Treatment Antioxidant-Revitalizing-Reaffirming

The C Vital treatment (pictured above) neutralizes free radicals and activates collagen synthesis. The combination of products in this outstanding kit will help the client reboot their skin with a triple dose of antioxidant power and the calming properties of Green Tea.

Intended for the client with a dull, lifeless complexion. Suitable for men and women with signs of aging or sun damage. Compliments any other skincare regimen.

## Vital Age Retinol 4-Week Series Prevents Premature Aging

Vital Age Retinol increases cell renovation of the epidermis, prevents premature aging, and energizes the natural defense mechanisms of the skin against free radicals. It helps to reduce superficial wrinkles and expression lines from face, neck, and décolletage. The skin is left soft, taut, and luminous in addition to softened visible imperfections.

## Despigmen Intens 10-Week Treatment for Pigmentation

Despigmen Intens is the most complete formula for treating hyperpigmented skin. Glabridin, together with Kojic Acid and Uva-Ursi extract make this a safe and effective synergistic mixture of skin lightening agents.

## Advanced Skincare Classes

Dermavista regularly offers Advanced Skincare Classes at which you will learn new professional spa treatments along with sales training to help you appeal to the needs of your clients.

## Sun Premium - the Science of Sun Protection

The Sun Premium line developed by Atache provides protection against UVA and UVB radiation through four sun filters and protectants (physical and chemical). These products have different levels of protection against UVB that fulfill the Colipa norm responsible for solar erythema.

Four facial products (SPF 15, 25, 30, and 50) plus a volumizing lip gloss (SPF12), and two body protectants (SPF 4 and 15) make up the Sun Premium line.
